

Ricochet!

Shiny Toy Guns

Welcome back to
Where I'm gonna have you
Shell shock, fall back
Anyone I see through

Watch your head spin
Like a mesocyclone
Bouncing off the walls
Now there's nowhere to run

Like a bullet, meant to be shot
You're the target, dead on the spot
When I focus, I never miss
It starts with a kiss

She ricochets
And you don't notice
She's in your head
And you just don't notice

She ricochets
And you don't notice
She's in your head
And you just don't notice

Notice, notice, notice, notice
Notice, notice, notice, notice
Notice, notice, notice, notice
Notice

Let the sweat fall
Find me in the back stall
Let it snow down
Now we're gonna deck halls

I hit the bullseye
Making all the boys cry
I hit the main line
Breaking through the night sky

Like a bullet, meant to be shot
You're the target, dead on the spot
When I focus, I never miss
It starts with a kiss

She ricochets
And you don't notice
She's in your head
And you just don't notice

She ricochets
And you don't notice
She's in your head
And you just don't notice

Notice, notice, notice, notice
Notice, notice, notice, notice

Notice, notice, notice, notice
Notice, notice, notice, notice
