## **Ricochet!**

## Shiny Toy Guns

Welcome back to Where I'm gonna have you Shell shock, fall back Anyone I see through

Watch your head spin Like a mesocyclone Bouncing off the walls Now there's nowhere to run

Like a bullet, meant to be shot You're the target, dead on the spot When I focus, I never miss It starts with a kiss

She ricochets And you don't notice She's in your head And you just don't notice

She ricochets And you don't notice She's in your head And you just don't notice

Notice, notice, notice, notice Notice, notice, notice, notice Notice, notice, notice, notice Notice

Let the sweat fall Find me in the back stall Let it snow down Now we're gonna deck halls

I hit the bullseye Making all the boys cry I hit the main line Breaking through the night sky

Like a bullet, meant to be shot You're the target, dead on the spot When I focus, I never miss It starts with a kiss

She ricochets And you don't notice She's in your head And you just don't notice

She ricochets And you don't notice She's in your head And you just don't notice
