

## When They Came for Us

Shiny Toy Guns

Why are the Robots so sad?  
We're not in trouble anymore...anyway  
And no more  
Synthetic fighting  
They stopped the lightning  
After today...

[Chorus]

When they took the beach that day  
They stole the children  
Took them away  
And I miss everyone...  
But most of all the little ones  
And their shiny toy guns....

Each and every one of us still pray  
Hoping for evidence  
..Looking for clues  
All the robotic families  
Searching the circuitry  
For what remains

I remember mother that day  
When her tears woke us so quietly  
From our dreams  
She told us  
That fathers sleeping  
And he is watching  
From far away....
