

# I Just Have To Breathe

Shirley Bassey

There are things that I did long ago  
That I don't do anymore  
We grow out of things  
Each day is different than the day before  
And yet to love you  
I just have to breathe

There are needs we have when we are young  
And discard as we mature  
Time can change so much  
The only certain thing is nothing sure  
And yet to love you  
I just have to breathe

It's not an easy place  
This world we face  
But I'll face anything  
As long as that warm morning sun  
Will always bring me you

There's a time for everything we do  
When it's over we move on  
Just true love remains  
And I'll still love you when all else is gone  
For me to love you  
I just have to breathe

In this world where nothing stays the same  
Stay with me
