

If and When

Shirley Bassey

If and when
I've fallen in love again
I shall remember when
My world was you
When and if

I get that all terrific thrill
It will last until
I think of you
Live and learn

They say, we live and learn
And may be in return
We learn to live
Foolish me

How crazy can I be
When anyone can see
There's only you
If and when

Love ever calls again
I close the door and say
You've been this way before
If and when

Love ever calls again
I close the door and say
You've been this way before
