

# Make the World a Little Younger

Shirley Bassey

When the world was a little younger  
Fairytale were always true  
Every face was filled with laughter  
Every day brought something new

Summertime seemed to last forever  
Friends would come and friends would go  
But their warmth would always linger  
In the days when time ran slow

Make the world was a little younger  
Let the laughter in  
Yesterday was filled with magic  
Bring it back again

Make the world a little younger  
Wear a happy face  
When the world's a little younger  
Life's a brighter place

When the world was a little younger  
Love was just a smile away  
There was time for going fishing  
And the games we used to play

Make the world was a little younger  
Let the laughter in  
Yesterday was filled with magic  
Bring it back again
