

Run on and on and On

Shirley Bassey

Run on and on and on
With all my tears life must go on and on
My head held high
I think about tomorrow

Buy my head turns round
For a last glance at familiar ground
Trying not to make a sound
As I whisper farewell

Run on and on and on
The love I left behind, it's done it's done
There must be
Somewhere a happy ending

Now that the past is done
Without regrets I'll carry on
All the rights that turned out wrong
Have all been left to die

So as my head turns round
For a last glance at familiar ground
Filled with dying memories
I'll run on and on

Run on and on and on
The love I left behind, it's done it's done
There must be
Somewhere a happy ending

Now that the past is done
Without regrets I'll carry on
Filled with dying memories

I'll Run On and On
