

## Run on and on and On

Shirley Bassey

Run on and on and on  
With all my tears life must go on and on  
My head held high  
I think about tomorrow

Buy my head turns round  
For a last glance at familiar ground  
Trying not to make a sound  
As I whisper farewell

Run on and on and on  
The love I left behind, it's done it's done  
There must be  
Somewhere a happy ending

Now that the past is done  
Without regrets I'll carry on  
All the rights that turned out wrong  
Have all been left to die

So as my head turns round  
For a last glance at familiar ground  
Filled with dying memories  
I'll run on and on

Run on and on and on  
The love I left behind, it's done it's done  
There must be  
Somewhere a happy ending

Now that the past is done  
Without regrets I'll carry on  
Filled with dying memories

I'll Run On and On
