

Battle Cry

Shontelle

Yeah

Hey, hey, hey

Hey, hey, hey

Hey, hey, hey

We've been deep in the trenches, ain't that friendship?
It's not always roses but everybody knows this
We stuck in this battle field, I know just how you feel
Standin' up for us, I'ma be a soldier

You give me hope, you give me strength
I'd give you better than I could ever give myself
Always know that I got your back
Don't matter wherever as long as were together
We've been through too much

We've been through too much, time for us to group up
Come on and let's stand up now for us
This is our battle cry, promise you that I'm certified
All we gotta do is stand up now for us
This is our battle cry

Hey, hey, hey
Hey, hey, hey
Hey, hey, hey
This is our battle cry

It's so hard when the night falls
And I don't get your phone calls
You're everything to me
You heal me when these bullets go through me

And if I had to retreat
I know you'll fall back with me
And if you got problems
You already know whose gonna solve them

You give me hope, you give me strength
I'd give you better than I could ever give myself
Always know that I got your back
Don't matter wherever because we'll always be together

We've been through too much, time for us to group up
Come on and let's stand up now for us
This is our battle cry, promise you that I'm certified
All we gotta do is stand up now for us
This is our battle cry

Now it's time to get focused
I ain't saying nothing man, you already know this
So if hope floats then flow this
And if you need to swim I'ma bring a ...

Now I don't need to sound so monotonous
If you need something from me call me I got this
And I don't give you what you need from me
And I'ma be right there when I need to be

We've been through too much, time for us to group up
Come on and let's stand up now for us
This is our battle cry, promise you that I'm certified
All we gotta do is stand up now for us

We've been through too much, time for us to group up
Come on and let's stand up now for us
This is our battle cry, promise you that I'm certified
All we gotta do is stand up now for us
This is our battle cry

Hey, hey, hey
Hey, hey, hey
Hey, hey, hey
This is our battle cry
