

## Down In Denver

Shorebirds

Downtown is crumbling away  
And Lodo Light's aflame  
So meet me down by the secret spot  
And we'll watch the city decay

[Chorus:]

Down in Denver, down in Denver  
All I did was die  
This fucking city, it clipped my wings  
Now I cannot fly

Bike path iced over  
The buddies got no place to stay  
The song of the dancing aliens  
Is the soundtrack to the city's decay

[Chorus]
