

# In My Hands

## Short Stack

In My Hands In My Hands I'm on top of the world  
But the girls just like you just don't get it  
That tonight's about us about love about lust  
And I promise I'll never forget it

And the way that you move with your hands is so smooth  
That we touch and we brush and I blush and  
The smile that I wear it ain't going nowhere  
Cos my heart at the seams it's a bustin  
But you know  
I don't think we're going anywhere at all

You think that I'm crazy I think you're insane  
So place your hand in mine and whisper my name  
Oh darling you've fixed me now lets run away  
And place your hand in mine  
I need you to stay I need you to stay

In My Hands In My Hands  
My beginning's my end  
And the thought of it's making me sweeter  
But if I hold my sleeve to your bones and my teeth  
Then I guess I'll make you a believer

And the way That you move With your hands is so smooth  
That we touch And we brush And I blush And  
The smile That I wear it aint going nowhere  
Cos my heart's at the seams  
and my heart's at the seams  
and my heart's at the seams  
It's a bustin'

You think that I'm crazy I think you're insane  
So place your hand in mine and whisper my name  
Oh darling you've fixed me now lets run away  
And place your hand in mine  
I need you to stay I need you to stay

These hips sync, we're nowhere  
Sorry and take the wheel  
To hinder, a slow process  
Love's based on Sex-Appeal

In My Hands In My Hands  
I'm on top of the world  
But the girls just like you just don't get it  
That tonight's about us about love about lust and I promise  
I'll never forget it

And you think that I'm crazy I think you're insane  
So place your hand in mine and whisper my name  
Oh darling you've fixed me now lets run away  
And place your hand in mine  
I need you to stay I need you to stay  
I need you to stay I need you to stay  
I need you to stay I need you to stay
