

# We All Know

## Short Stack

Excuse me I'm flaunting my worst expectations  
On top of the top of the world  
Eyes so blunt, hold my tongue  
I'll keep you number one  
Straight keeping faith in the face of the world

So go  
We all know  
We're so scared  
So never hold me close  
All night long  
Wrongly strung  
We'll collide  
And then break both of our strides

CHOROUS:

(We all know) I miss you already  
(We all know) My eyes are getting heavy  
(We all know) It shakes so keep it steady  
(We all know) I'll be your blunt machete  
(We all know) I miss you already  
(We all know) My eyes are getting heavy  
(We all know) Sandy we're going steady  
(We all know) I miss you already

Down one sound, count me out  
Impress my mindful doubts  
Scream through your teeth  
And the words sang it's tune

All night long  
Wrongly strung  
We'll collide  
And then break both of our strides

CHOROUS:

(We all know) I miss you already  
(We all know) My eyes are getting heavy  
(We all know) It shakes so keep it steady  
(We all know) I'll be your blunt machete  
(We all know) I miss you already  
(We all know) My eyes are getting heavy  
(We all know) Sandy we're going steady  
(We all know) I miss you already

Excuse me I'm flaunting my worst expectations  
On top of the top of the world  
Eyes so blunt, hold my tongue  
I keep you number one  
Straight keeping faith in the face of the world

We all know  
We're so scared  
Never hold me close  
All night long

But wrongly strung  
And We'll collide  
And then break both of our strides

CHOROUS:

(We all know) I miss you already  
(We all know) My eyes are getting heavy  
(We all know) It shakes so keep it steady  
(We all know) I'll be your blunt machete  
(We all know) I miss you already  
(We all know) My eyes are getting heavy  
(We all know) It shakes so keep it steady  
(We all know) I miss you already  
(So go) I miss you already  
(We all know) My eyes are getting heavy  
(We're so scared) It shakes so keep it steady  
(Never hold me close) I'll be your blunt machete  
(All night long) I miss you already  
(Wrongly strung) My eyes are getting heavy  
(We'll collide) It shakes so keep it steady  
(And then break both our strides) I miss you already
