

# We Dance To A Different Disco, Honey

## Short Stack

We dance alone tonight because  
We dance to a different disco honey

Honey, forgive me for I have sinned  
And I don't believe in you so  
We murder this dance floor  
Because we're all done for  
We dance to a different disco

And I lie awake at night  
Just hoping to make you shiver  
I'll be your disaster  
Forever and after  
So cry me a fucking river  
And I'll be just fine  
I bet you say that to all the boys

We dance alone tonight because  
We dance to a different disco honey  
And we na na na na never fall in love  
We dance to a different disco honey

Honey I'll shoot down the moon for you  
I love every word you've spoken  
I know that you miss me  
So shut up and kiss me  
Living la vida loca  
And I'll be just fine  
I bet you say that to all the boys  
Is this what you've been waiting for

We dance alone tonight because  
We dance to a different disco honey  
And we na na na na never fall in love  
We dance to a different disco honey

Our lips collide with such force  
We dance to a different disco honey  
And we na na na na never fall in love  
We dance to a different disco honey

We dance to a different disco  
We dance to a different disco honey  
Boom

How we never say we slip slip slip woah  
We'll be working for the kiss kiss kiss woah  
And I never said I'd miss miss miss woah  
And we'll be dancing to a different disco honey

We dance alone tonight because  
We dance to a different disco honey  
And we na na na na never fall in love  
We dance to a different disco honey

We dance alone tonight because  
We dance to a different disco honey

And we na na na na never fall in love  
We dance to a different disco honey

We dance to a different disco-oh  
We dance to a different disco-oh-oh  
We dance to a different disco-oh  
We dance to a different disco honey
