

Overkill

Shotgun Messiah

superhuman pushing the edge
oh, so dementedly fit
razor ripplin' surgical smiles
suck the blood from my lip

young punks on dope
the living dead

overkill
selfinduced insanity in a pill
overkill
virtual reality in a pill

synaesthesia temple of glass
my conscience slowly dissolves
fallen angels fallen from grace
die for a probable cause, yeah

young punks on dope
the living dead

overkill
selfinduced insanity in a pill
overkill
virtual reality in a pill

I've been shaking for a long time, baby
poison in my system
saw Judas and I kissed him
transmutating with nowhere to go
poison in my system
apocalypse now

overkill
selfinduced insanity in a pill
overkill
virtual reality in a pill

overkill
selfinduced insanity in a pill
overkill
virtual reality in a pill

overkill
selfinduced insanity in a pill
