

Show Me Something New

Shout Out Louds

You and I
Have a hard thing to describe
You have some much to live for
While I am just dying to stay alive

You and I
Have something you shouldn't try
You have an eye for fashion darling
I'm sitting in my room let the disc go by

So much to live for

Radio daylight, radio darkness
Radio daylight, radio darkness
Show me something new, Show me something new
Show me something new, Show me something new

You say things
I've only read in books
I been stuck here for ages
While you get younger and younger

So much to live for

Radio daylight, radio darkness
Radio daylight, radio darkness
Show me something new, Show me something new
Show me something new, Show me something new

Radio daylight, radio darkness
Radio darkness, radio silence
Show me something new, Show me something new
Show me something new, Show me something new

So much to live for

Radio daylight, radio darkness
Radio daylight, radio darkness
Show me something new, Show me something new
Show me something new, Show me something new

Show me something new
