

Wish I Was Dead Pt.2

Shout Out Louds

I want to hear drums and my hearts a drum.
I guess we never know what to become.
Well I didn't know that this was such a problem.
It's gonna get better when we solve them.

I try to try to lose my head but I wish wish wish
That you were always here and I try to try to lose my head but
I wish wish
Wish that I was dead.

I'm on birthday cards and on a big trip.
If this wouldn't happen then I'd bite my lip.
But I didn't know that this was such a problem.
Its gonna get better when we solve them.

And I try to try to lose my head
And I wish wish wish that you were always here.
And I try to try to lose my head and I wish
Wish wish that I was dead
But I didn't know that this was such a problem.
It's gonna get better when we solve them.

Wa wa wa and I try to try to lose my head
And I wish wish wish that you were always here
And I try to try to lose my head
And I wish wish wish that I was dead
