

Only Love

Showaddywaddy

Only love can make you high
Tall as the sky
When you're in love.
And only love can make you strong
Can't do no wrong
When you're in love.

Only love can make you proud
You shout out loud
How good it feels

Only can make you strong
Can't do no wrong
When you're in love.

Only love, can make you do
Those foolish things I did for you

Only love will break your heart
But that's all part
Of this thing called love.
