

Teen Canteen

Showaddywaddy

You wanna go dancin' on a Saturday night
I know a place that's way outta sight
Rock'n'roll bar, 66
With a rockabilly band
and some real cool chicks
You better believe it boy.

You don't need a dollar
you don't need a dime
Get along down have a swinging time
Put on your sneakers and real tight pants
And let yourself go to that rockabilly band.

Teen canteen, it's the place to be seen
Teen canteen, the real American dream.

Down 66, about a four hour drive
You'll see the wheels, the place is alive
Jet black soul and country rock
When that music stops it never stops.

You ever get down that western coast
You know the place
you wanna be at most
Paint your hair and paint your jeans
'Cause there ain't no place
like teen canteen.

Teen canteen, it's the place to be seen
Teen canteen, the real American dream.
