Waiting For You

When I see you smile It makes me smile too I can't believe how far away you really are Did you ever think of anyone else Did you ever think of yourself One wish I had I used on you I'll be right here waiting for you Waiting for you (2x) When I look in your eyes I see much more than you I can't believe how fucking strange you really are I can't think of anyone else I can barely think for myself All that I know is that I love you I'll be right here waiting for you Waiting for you (2x) I don't want to face the world without you (6x) I'll be right here waiting for you Waiting for you (2x)
