

Molecular Superstructure

Shpongles

(Brazilian Portuguese)

Aí... se começar demorado vai mantendo logo, depois inverte. De vagar... não tem pressa... sobe... desce...

(English)

I mean, we are like caterpillars, contemplating pupation. No longer will I chew on the cabbage leaves, no longer will I spend my time moving around on the underside of the foliage! Life must be a preparation for the transition to another dimension.

(Brazilian Portuguese)

Legal. Quanto é? Se quiser já janta agora. Vamos inverter, ó. Isso...

(English)

Here we go! Climbing way up into the sky, and we'll see if this ride is really like flying!
