

My Head Feels Like a Frisbee

Shpongle

My head feels like a frisbee;
Twice its normal size
Feels like a football and someone's moved the goal posts
Everything is slightly out of joint and weird; disconnected
I had to hold onto the walls

And we noticed that women
Especially the hippy ladies
Started reacting differently
With your permission their nipples get hard;
They start dancing in a whole other kind of way
Catching butterflies in the air
People get goosepimples
They laugh, they cry at the same time
They get horny and holy at the same time- you see them

This one brought me down to my knees
I had to hold onto the wall
My knees shaking, quivering
My head feels like a frisbee
