

Midnight Maps

Shriekback

We are marching on the midnight maps We are looking for a perfect world Anywhere in the universe Anywhere they'll take my cash Anywhere the wind is outside (outside) I'm leaving cars behind me We'll be walking to the perfect world It could be anywhere, any way from here Anywhere the wind is outside

I know what's good for you I have my reasons I draw these plans for you Pick 'em up and read them I know what's good for you I have my reasons I draw these plans for you Pick 'em up and read them

I'm leaving clothes there on the midnight beach They wouldn't be in perfect style Anywhere on a rocky coast Anywhere we land intact Anywhere the sea's at high tide (high tide) I'm putting markers on the midnight map I should be searching from door to door now Anywhere in the neighbourhood Anywhere we already looked Maybe a little bit uptown

Why let your heart bleed? Why suffer soul strain? Why lose your sleep over things such as these? Why let your heart bleed? Why suffer soul strain? Why lose your sleep over things such as these?

I know what's good for you I have my reasons I draw these plans for you Pick 'em up and read them I know what's good for you I have my reasons I draw these plans for you Pick 'em up and read them
