

Only Thing That Shines

Shriekback

Night night, blow out the candle
Inside a blazing building
On a sacred mission
All the lights that twinkle
All the pens that sing
All the wishes that sink
Making up our minds

Up the wooden steps
Up into my heart
I know that you know this is all that matters
I feel our two young deaths so close now
Smiling soft and shiny
The blade is sharp and fine
It could just slit us open

And you know this is nothing special
With just one slip and we could lose ourselves forever
One time for all times
And you are the only thing that shines

Nowhere near, wading a lake of silence
Only say that word
And I will pour myself like wine
This is as much as I know, this is all they told me
Wicked shapes and lines taking us somewhere

And you know this is nothing special
With one slip and we could lose ourselves forever
One time for all times
And you are the only thing that shines
