

the stage

Shura

Are we gonna kiss? Exciting.
I promised you my lips, in writing.
Take me by the hand and lead me through the room.

And it's so romantic.
And I'm so pathetic.
I can't see the stage,
Cause I'm looking at you.

And we're done with music,
So if you're assuming.
You're coming back with me,
Then baby yes you can.

Done with music, babe.
We're done with music.
Done with music, babe.
We don't wanna dance.
We just wanna...

We just wanna
Get out of here,
Get a car to my place,
And spend the evening kissing, baby.
Leave everybody dancing up on the stage.
(Leave everybody dancing.)

Don't need persuading.
If you'll play, I'm playing.
But I forgot my lines,
Did you forget them too?

Done with music, babe.
We're done with music.
Done with music, babe.
We don't wanna dance, dance, dance.
We just wanna...

We just wanna
Get out of here,
Get a car to my place,
And spend the evening kissing, kissing.

We just wanna
Get out of here,
Get a car to my place,
And spend the evening kissing, kissing.
And spend the evening kissing, baby.
