

# Butterflies

Shwayze

I know you hear me on the radio,  
And you see me in my video,  
And now you're trying to play me like a stereo  
Got me blowin' up your phone

You're givin' me butterflies, butterflies again  
You're givin' me butterflies, butterflies again  
Something about your lovin' caught me by surprise  
Oh yeah, you givin' me butterflies, butterflies, butterflies again

Sweeter than M&M's  
Remember when, you took me swimming  
In your summer house  
Innocence, was in the air we were both 16 then  
But you looked 23 sick in the one piece  
Dumb me had to take it to the friend zone  
Up, up all night talking on the phone  
If I never told you then you couldn't of known  
Plus you never really know 'til it's really gone  
Really down on the full-ride scholarship  
Kill me now on the bus down Hollywood  
Writing songs about you and how I wish I could  
If you were here right now then you knew I would  
Playing shows so we're blowing up a lil bit  
Catch myself talking about you every now and then  
Last out Philly, pulled up to the TLA  
Turned around and I saw your face, like wow

You're givin' me butterflies, butterflies again  
You're givin' me butterflies, butterflies again  
Something about your lovin' caught me by surprise  
Oh yeah, you're givin' me butterflies, butterflies, butterflies again

Chilling out by the pool on a summer day  
Still reminding me of you in some sort of way  
'Cause you're cooler than a tall glass of lemonade  
And you're hotter than the sunshine, baby, when you shine for me  
Don't you ever say I settle for less  
I would never half-step or give you a bad rep  
Give me a kiss on the cheek  
And I won't wash it off 'til I see you next week  
'Cause I'm love stoned, that's what you're doin to me  
If you must know, I see you in my dreams  
I'm a hunchback, got me head over knees  
Baby please tell me is this make believe?  
Or is it real life? What's the difference?  
I know it can all change in an instant  
For instance, when you made your entrance  
You changed me, now it's all we did

You're givin' me butterflies, butterflies again  
You're givin' me butterflies, butterflies again  
Something about your lovin caught me by surprise  
Oh yeah, you're givin' me butterflies, butterflies, butterflies again

I know you hear me on the radio,  
And you see me in my video,

And now you're trying to play me like a stereo  
Got me blowin' up your phone  
But you still won't answer it  
You smoke your cancer stick  
Sit around, think about the things we did  
Wishin' we were kids  
Chasin' those butterflies, butterflies again  
Chasin' those butterflies, butterflies again

You're givin' me butterflies, butterflies again  
You're givin' me butterflies, butterflies again  
Something about your lovin' caught me by surprise  
Oh yeah, you're givin' me butterflies, butterflies, butterflies again  
You're givin' me butterflies, butterflies again...
