

Lost My Mind

Shwayze

With my raincoat on
Its alright baby hold my hand
I aint tryin to be your man
Lets take it slow
Relax a little
Make it so its naturable
As a matter of fact
Lets take it black
To the very first day I had your back
We shared a cab
Shared a laugh
Shared a glass
And I kissed yo ass
Kissed yo lips after class
We both had history after math
Passin notes teachers askin for em
I read em out loud to the class
Like a poem or a rap
Say it liked I mean it
When my big toe tap
Hand them back and forth like that
If you like what your hearin
You can meet me out back (out back)

With my raincoat on
In the heart of the sun
With my raincoat on
In the heart of the city

I lalalost my mind
I lalalost my lady
I lalalost my mind
But I lalalove you baby

It crossed my mind
Beofre I lost my mind
I guess I should check back in sometime
Sometimes a perfect litte word rhymes
And sometimes it dont
Fine rewind
Repeat it three times if you mean it
I wanna crib by the beach believe it
So baby doll im leavin
Baby doll im leavin
Duffle bag filled with clothes
Notebook filled with flows
Phonebook filled with hoes
My dope hook gonna get me close
My hope is what drives me towards this future
Like a midnight double feature
So I high that I blow those tweeters
In the speakers

With my raincoat on
In the heart of the sun
With my raincoat on
In the heart of the city

I lalalost my mind (she outs the door)
I lalalost my lady (she outs the door)
I lalalost my mind (she outs the door)
But I lalalove you baby (she outs the door)

Woke up at about noon
Just thought that I had to be in compton soon
To get my hair lined up
And a new tattoo
The blacker the berry
The sweeter the juice
The mac of the year
Shwayzes a fool
Take you to school
And pick you up too
Maybe I do anything for you
Maybe I do anything for you
Maybe I do anything for you
Maybe I do anything for you

Would you do it for me?

I lalalost my mind (she outs the door)
I lalalost my lady (she outs the door)
I lalalost my mind (she outs the door)
But I lalalove you baby (she outs the door)
I lalalost my mind (you know lifes good right now)
I lalalost my lady (im next to the beach)
I lalalost my mind (my feet in the sand your gone and im happy)
But I lalalove you baby (whatever baby)
I lalalost my mind
I lalalost my lady
I lalalost my mind
But I lalalove you baby
