

Summertime Music

Shwayze

Everybody in the place to be
Put your hands where my eyes can see
you know how we do it
summertime music

turn the radio up, they're playing our song
summertime music
playing our song
summertime music
(turn the radio up)

all the girls laying out on the grass
cause the sunshine's so much sweeter than class
a couple brew's and an hourglass
what's better baby i don't ask, cause
life's been real good to me so far
and I aint complaining
so lets get wild, voodoo child
sunshine's crazy little baby baby

turn the radio up, they're playing our song
summertime music
playing our song
summertime music
turn the radio up
they're playing our song
summertime music
playing our song
summertime music

when the weather is sweet
it makes me wanna move my dancing feet
c'mon baby baby will you dance with me
you're my favorite partner
ohh

turn the radio up, put the top down
we gotta go to work tomorrow but not now
so turn it up, turn it up
fill up my cup
baby i wanna drink to that

turn the radio up, they're playing our song
give me some of that summertime music
playing our song
give me some of that summertime music
turn the radio up, they're playing our song
give me some of that summertime music
playing our song
give me some of that summertime music

and we aint gotta wait till the summertime
got a beer in one hand, in the other there's a dime
on a houseboat chillin
must have lost my mind
when I did a cannonball butt naked for the third time
DJ'ing, freeskating

aint it funny
you make it serious while we over here making money
getting tan while supermodels shake it for me
you probably couldn't picture this but could you take one for me
I'm feeling good

turn the radio up they're playing our song
give me some of that summertime music
playing our song
give me some of that summertime music
turn the radio up, they're playing our song
give me some of that summertime music
(turn it up turn it up) playing our song
give me some of that summertime music
