

# Wait All Night

Shwayze

You were charmed like the heart on your bracelet the only star I see from my  
spaceship from afar I could almost taste it, what it taste like? it tastes  
amazin' flash your break lights, I'll be patient but the way you're lookin'  
at me is drivin' me cra-  
zy definitely maybe I can't read the signs on your Baby,

I don't wanna wait all night  
Just to watch you leave  
I don't wanna wait all night  
Just to watch you leave

Fire alarm goin' off in the basement.  
And I don't know how long I can take it.  
You're on my mind and I can't erase it  
When I close my eyes, I see you naked  
You impressed just a little bit, ain'tcha?  
You can give me just a little kiss, Cain'tcha?  
Tell your boyfriend you're puttin' on makeup  
And meet me in the bathroom

I don't wanna wait all night  
Just to watch you leave  
I don't wanna wait all night  
Just to watch you leave

You the lock, I'm the key  
You the kick, I'm the snare, let's make a beat  
Nothin' in this world is free, except love  
And the air we breathe  
Do you wanna dance with me?  
... We can see real close?

I don't wanna wait all night  
Just to watch you leave  
I don't wanna wait all night  
Just to watch you leave

Say babe, I been lookin for you since the Cassete tape days,  
Found me, then you pressed play  
Had me waitin' for the next day  
Stood me up like with his shades,  
Hit me up with 'erry excuse to the point where what you say is a loop.  
And them otha' dudes fluke  
I don't know why you datin' them  
They lame like R&B groups  
Say babe, Why you got me callin you my girl when you out here cheatin on mee  
?  
All in the head of Tabi Bonney  
But anyways... I need a lover like you babe  
Old school My time witchu pre paid.  
So sweet that soon I had no teeth.  
I'm a buy you a candy bank if you be my girlfriend.

I don't wanna wait all night  
Just to watch you leave  
I don't wanna wait all night

Just to watch you leave
