## **A Situation**

Well I live here with you In, in a kind of "yes, will do" Oh what part of now don't you understand I'm showing you well apparent Yeah I get the bluff if I'll get out No room for three, you, me and your doubts One of us has got to leave And it sure will be me And I think we could have a situation We could have a situation Any reason we can't just settle around now Yeah, ok, and how? Rather than shout and praise Adjust with them, not without friends Oh, what part of our old tune don't you understand I think I made it clear that you're in the mend In the mend Oh, we could have a situation Oh, we could have a situation
