

# Cellophane

Sia

Look at me I'm such a basket case  
To live and do you're wrapped instead of fight  
Waiting in on your doorstep, out your day  
To deliver me a basket filled with pain  
Patience is your virtue, sane of mind  
I'd have fallen to the cracks without your love tonight  
I'm your ground hole, and I'm skating on thin ice  
When you see me at your feet, carry me inside  
Eh eh eh eh  
Eh eh eh eh

How can you see I'm wrapped in cellophane?  
Watch the blame I'm through night  
Electricity flies high up bright  
Can't hide the pain  
Can't hide the pain  
When you're wrapped in cellophane

Look at me I'm such a basket case  
While I fall apart, you hide on my pillows again  
And all the things I need to hear you say  
Your watch is on my thoughts  
Can't buy back on the drive  
Eh eh eh eh  
Eh eh eh eh

How can you see I'm wrapped in cellophane?  
Watch the blame I'm through night  
Electricity flies high up bright  
Can't hide the pain  
Can't hide the pain  
When you're wrapped in cellophane

Ooooooh

How can you see I'm wrapped in cellophane?  
Watch the blame I'm through night  
Electricity flies high up bright  
Can't hide the pain  
Can't hide the pain  
When you're wrapped in cellophane
