

Don't Get Me Started

Sia

Don't want to be another craze
How about rather not see and I turn my face
Don't want to leave you unfinished
And resting on the noise that you left
I don't want to leave you mistaken, forsaken
Lying with the rest

I don't want you to be another
Touch, you talk the conversation
I don't want you to be another
Reason for me to leave this situation

Don't get me started
Don't get me started
Don't get me started
Don't get me started

I don't want to be a woman last
Yeah I wish you another man
I don't want you to kill my name
And ask if I'm hovering him
I won't send and gather dust
In the corners of your world
Cause believe me, when you leave me
It won't be a minute too soon

Don't get me started
Don't get me started
Don't get me started
Don't get me started

I don't want you to be another
Touch, you talk the conversation
I don't want you to be another
Reason for me to leave this situation

Don't get me started
Don't get me started
Don't get me started
Don't get me started
Don't get me started
Don't get me started
Don't get me started
Don't get me started
