

# Eye of the Needle

Sia

Take me down, I'm feeling now  
And the fire moves on, I admit to go  
And I ain't ready  
But I'll hold steady  
Yeah I'll hold you  
In my arms, in my arms  
In my arms

And I'm left inside my hole  
And your melody are my home  
And I won't let the terror in and steal them down  
Through the eye of the needle

Stopping a beat  
Tears fall to the beat  
Smile will draw the pain  
Feel the ashtray  
And I ain't ready  
But I'll hold steady  
Yeah I'll hold you  
In my arms, in my arms  
In my arms

And I'm left inside my hole  
And your melody are my home  
And I won't let the terror in and steal them down  
Through the eye of the needle

My bells help me  
Being, feeling 'bout me  
They were here down  
Carry down road  
It's a mine, oh mine  
Oh I am blind  
Defy the eye of the needle

And I'm left inside my hole  
And your melody are my home  
And I won't let the terror in and steal them down  
Through the eye of the needle  
Eye of the needle  
And I'm left inside my hole  
And your melody are my home  
And I won't let the terror in and steal them down  
Through the eye of the needle
