

## Get Me

Sia

Now I don't mind if you find  
That I'm a shoulder to cry on rely on  
But the burden is just too much  
I'm losing touch with myself and my health

What you gonna do if you get me  
I can heal your problems if you let me  
What you gonna do if you get me  
I can heal your problems if you let me

Now I don't keep you from your sleep  
I need some ease I'm tired of trying to please  
And it seems that my dreams are coming farther  
And fewer in between

What you gonna do if you get me  
I can heal your problems if you let me  
What you gonna do if you get me  
I can heal your problems if you let me.
