

# Hurting Me Now

Sia

You, you don't like my hair  
You don't like what I wear  
I'm flying drying you see I'm trying  
Why do you try to change me all the time?  
You, say that I talk too much  
I know it drives you nuts  
You tell me you were shy was batter better yeah  
You know your eyes forget when I'm in the room

You're hurting me know you take me down and you don't even notice  
You're think it's a joke but baby don't, you don't even notice  
You're hurting me know you take me down and you don't even notice  
You're think it's a joke but baby don't, you don't even notice

You, you say I sing too loud  
I want you to be proud  
I want you screaming out that girl is my own lover lover  
But you've already tuned me out  
You, you know these words you say  
Are causing an ounce decay  
You feel like I'm withdrawing  
I am running away  
You're pushing, you're pushing me

You're hurting me know you take me down and you don't even notice  
You're think it's a joke but baby don't, you don't even notice  
You're hurting me know you take me down and you don't even notice  
You're think it's a joke but baby don't, you don't even notice

Don't want you to blow it, you're hurting me  
I know you don't know it  
(4x)

You're hurting me know you take me down and you don't even notice  
You're think it's a joke but baby don't, you don't even notice  
You're hurting me know you take me down and you don't even notice  
You're think it's a joke but baby don't, you don't even notice
