

# Never Gonna Leave Me

Sia

We are anything, but unremarkable  
We found things, that we have given up on  
We were two, peas in a pod  
Oh yeh

Pleasing me, seven good deeds  
I'm a man of strengths, a man indeed  
We found things, we had given up upon

Now that you have gone  
I know it wont be long  
You will be waiting for me  
Faithfully  
Baby

Now I'm taking your love from above  
You're never gonna leave me  
I will carry you on for so long  
Your love is never gonna leave me

Now I'm taking your love from above you're here  
And you're never gonna leave me  
I will carry you on for so long  
Your love is never gonna leave me

You're never gonna leave me

You touched my heart and then gave me yours  
I was so afraid I tried to ignore all the butterflies,  
Taking me over

We are anything, but unremarkable  
We found things, that we have given up on  
We found love

Now that you have gone  
I know it wont be long  
You will be waiting for me  
Faithfully  
Baby

Now I'm taking your love from above you're here  
And you're never gonna leave me  
I will carry you on for so long  
Your love is never gonna leave me

Now I'm taking your love from above you're here  
And you're never gonna leave me  
I will carry you on for so long  
Your love is never gonna leave me

Your love is never gonna leave me  
Your love is never gonna leave me

Now that you have gone  
I know it wont be long  
You will be waiting for me

Faithfully  
Baby

Now I'm taking your love from above you're here  
And you're never gonna leave me  
I will carry you on for so long  
Your love is never gonna leave me

Now I'm taking your love from above you're here  
And you're never gonna leave me  
I will carry you on for so long  
Your love is never gonna leave me
