

Clobberin' Time/Pay The Price

Sick of It All

It's Clobberin' Time(!)

Yeah

When will you learn

To face up to your mistakes

you thought you had me,

you thought it was something fun

You didn't realize

That the time would come

For you to take responsibility for your actions

You were the one who acted so wise

You were the one who dared me to cross the line

Your choice

You pay the price

You were the one, who acted so wise

Now you're the one whose gonna have to pay the price

When will you learn

To face up to your mistakes

you thought you had me,

you thought it was something fun

You didn't realize

That the time would come

For you to take responsibility for your actions

You were the one who acted so wise

Now you're the one whose gonna have to pay the fucking price
