

## My Life

### Sick of It All

Go to work, go to school  
Get an education, so you wont be a fool  
Be a doctor, PHD, all that shit, that's not for me

All my life people tell what to say  
This is my life live it my own way

Was so blind could not see  
figures of authority, always standing behind me,  
ready to come down on me

All my life people tell what to say  
This is my life live it my own way
