

Step Down

Sick of It All

In the underground, integrity lies within
in the underground, image doesn't mean a thing
when the substance lacks it's plain for all to see
if the deal is right then respect is where it should be.

For the fakes and frauds it's a fucking fashion show
total compromise will have them sell their soul.
all the negative all the useless influence
all the emptiness all the violent detriment
makes no sense...

Please have more to give than fashion and images
please have more to give than fashion and images

Caught up in a trap of media crap that's no way to live
Caught up in a trap of media crap so little to give
Caught up in a trap of media crap that's no way to live
Caught up in a trap of media crap so little to give

In the underground, integrity lies within
in the underground, image doesn't mean a thing
we can do away with this negativity
it's a golden day we can force them to stepdown
