

Just Can't Sleep

Sick of Sarah

Sleep the city lights are lonely
Wake with the stars that came before me
Dream a dream a dream a dream
Will you dream a dream for me
I lay awake in my bed with the stars to comfort for me

It hurts so bad
It hurts so bad
When it hits my head
It hits my head
I just can't sleep
I just can't sleep
I just can't sleep, why can't I feel like that

Sleep the city lights are lonely
Wake with the stars that came before me
Dream a dream a dream a dream
Will you dream a dream for me
I lay awake in my bed with the stars to comfort for me

It hurts so bad
It hurts so bad
When it hits my head
It hits my head
I just can't sleep
I just can't sleep
I just can't sleep, why can't I feel like that
Oh oh oh, yeah
And it hurts so bad
It hurts so bad
When it hits my head
It hits my head
You know I just can't sleep
I just can't sleep
I just can't sleep why can't I feel like that
Yeah...

Oh...

You know your yesterdays they could've been a better shade
I never had those words to say
I'm sorry, so sorry...

Never took the time, and you know I do it all the time and it hurts so bad

It hurts so bad
It hurts so bad
When it hits my head
It hits my head
I just can't sleep
I just can't sleep
I just can't sleep, why can't I feel like that...
