

Me Much Plenty

Sick Puppies

Don't want to be lost anymore
I find myself at the door
But I'm too scared to go

Been in this life for too long
I wanna see the sun
Inside my mind inside my mind

Hey! Hey!
Get the fuck out of me say!

Do you know what you came for?
If you don't even know
what's the point in being alive?

Get up, get up
Get up and fight
Get up, get up
Just live your life

Don't want to be lost anymore
I find myself at the door
But I'm too scared to go

Been in this life for too long
I wanna see the sun
Inside my mind

Do you know what you came for?
If you don't even know
what's the point in being alive?

Get up, get up
Get up and fight
Get up, get up
Just live your life

'Cause everyday is not a waste
It's all the same everyday
'Cause what you see
Isn't always what you get

Do you know what you came for?
If you don't even know
what's the point in being alive?

Get up, get up
Get up and fight
Get up, get up
Live your life
