

# Under a Very Black Sky

Sick Puppies

I have a dream you had a weapon  
I couldn't see it in the dark of the night  
It's easy to hide under a very black sky  
Over the moon just beyond seven  
I watched in vein as the missiles took flight  
We lost our lives under a very black sky

Under a black sky  
Under a black sky  
Under a black sky

Colors explode under your microscope  
But just deny as it's all black and white  
I lost my mind under a very black sky  
We live our lives mostly pretending  
You have a secret, you'll never know mine  
I wear a disguise under a very black sky

It's easy to love you  
Easy as hell when you're anyone, anyone else  
It's hard to fake it  
I know you can tell if you're anyone, anyone else  
If you're anyone, anyone else  
If you're anyone, anyone

Under a black sky  
Under a black sky  
Under a black sky

At first you believe and then you start lying  
Swallowing things like it's shredded up glass  
I'm bleeding inside under a very black sky  
Disappointment is cruel but hope can be crueler  
I sucked them both until I thought I could die  
Now all my tears are dry under a very black sky

Under a black sky  
Under a black sky  
Under a black sky  
Under a black sky

Under a black sky  
Under a black sky  
Under a black sky  
Under a black sky

Under a black sky  
Under a black sky
