Where I Live

I've got a fear of enclosed places crowded rooms and unknown faces people staring down at me I wonder what do they see? And I avoid them at all cost to the point of getting lost they make me want to run away I don't want to play Don't think I want to know where all my time will go I've got enough to worry about as it is Don't think I want to go everywhere I know I've got enough to do right here where I live

I'm afraid of being lame I always want to play the game my fears they are always colliding I find myself sliding tonight you're sitting at home watching TV by the phone wasting time once again I'm not coming in

Don't think I want to know where all my time will go I've got enough to worry about as it is Don't think I want to go everywhere I know I've got enough to do right here where I live Sicko
