

Clara's Eyes

Side A

Someday

This world will be a bettter place to stay

Oh, I believe someday

All our hopes and dreams

Will come to pass away

Chorus:

I believe that through(?) the sun has come shinin'

All the stars at night will agree

And when the mornin' comes

There's life and hope

Will shine its way to all our hearts

I believe I'll see you in paradise

Oh someday

We will hear the children's laughter in the air

Oh I believe one day

We will have a taste of heaven

This world where we stay

Chorus:

I believe that through(?) the sun has come shinin'

All the stars at night will agree

And when the mornin' comes

There's life and hope

Will shine its way to all our hearts

I believe I'll see you in paradise

Bridge:

You're free, can't you see the hope

When it charms us

Did you know that hopes and dreams

Can easily be foreseen

By those who's faith in Him

If you just believe

Chorus:

I believe that through(?) the sun has come shinin'

All the stars at night will agree

And when the mornin' comes

There's life and hope

Will shine its way to all our hearts

I believe I'll see you in paradise

Paradise

I believe I'll see you in paradise

I believe I'll see you in paradise
