Give Me Christmas

Sidewalk Prophets

Get out of bed Outside the window there's nothing but snow Run down the stairs The smile in my heart has spread down to my toes Heaven knows

Ribbons of red Presents as far as the eye can see In this wonderland The tree is a tower of gold and green What a wonderful scene

All the lights and the toys Bring us joy In the end, it's just not enough Cause what we really need And what Christmas really means is love Give me Christmas, give me Christmas

The table is set A house full of friends and family The fire is warm We'll be singing those songs and laughing all night long Cause there's one thing we all can agree

All the lights and the toys Bring us joy In the end, it's just not enough Cause what we really need And what Christmas really means is love Give me Christmas, give me Christmas

Gather round the tree And remember what Christmas really means

All the cookies and candy The carols and candles The stockings and the snow All the tinsel and trimmings And the lights are all twinkling The world is all aglow All of these things are so wonderful beautiful But what we really need is love

Give me Christmas Give me Christmas
