

## Forged in Flames

Siebenbürgen

Cold soul, shadow beast  
Arise as elder burns  
Behold the prophet of Nozterra  
Horned god of the past

From the dark, bound in flames  
Forged by nightmares unseen

A demon spawned by hate  
A pact beyond daeth  
Chained to prophecies of fate  
Forever to eternity

Banished to his Hades of ruin  
Where lies and death are kings  
From an age of dark illusions  
Sons of dragon flames

Legions of the dead arises  
Evoked by ancient gods  
Elder rulers once forgotten  
Unleashed upon this dying world

Ancient god of war unleashed  
Trechtlas wraith unclean  
A curse of hate, spirits dead  
Uncrowned but still a king  
A sword of flames raised to the sky  
A battle fought to win  
As heaven burns, to faded sun  
An age of hellstorm blessed upon this world of dying faith  
Savage Eden made impure  
As prophecies foretold, eternal night

God damnation, shadow king  
Ruler of death, cursed by disease  
Awakened from his ancient slumber  
Horned god of the past
