

# Rebirth of the Nameless

Siebenbürgen

Pervading madness, born in demons womb  
Reeking breed of soulless creed  
Wizards spell, alit depraving night  
As Lilith's shadow form a sacred chant

Putrid flesh this animation of the dead  
Arising through the flames of banned Ishtar  
Death is calling, unnamed darkness slither  
Awaken beasts feed, virtue sacrificed

Storms ascending, crushing me  
Oh, grant me visions of dying stars  
Falling through black voids of ever  
Darkened fire cleanse  
Fearless as I greet my death

Glowing darkness, follow flaming winds  
Disappearing light from demons eyes  
Flaming winds from darkened wings  
Tearing flesh from my bones

Rotting flesh, smell of death  
Arising through the flames of banned ishtar  
Slithering darkness calling from below  
Awaken beasts feed, virtue sacrificed

Enchanted night, perishing light  
I summon living death  
Upon the throne of hate

My soul transformed shadow born  
Burning true and strong  
Flame of stillborn breed  
All hail the shadow king  
Underworld majesty unleashed  
Reborn through blackest flame  
True son of true blood  
I summon thee upon my death  
I summon thee...
