

Disrespectfully Yours

Sieges Even

You have coffee when I have a pee
You start bitching about everything linked to me
On this record played for too many times
Don't you think we've discussed in to the nines
I just turn a deaf ear to you hold your tongue or tell me something new
I just turn a deaf ear to you I'm wandering you're still around
Stick to your guns or shut your mouth I don't know why you're still with me
You neither do as far as I can see bite back your speech
Just fade out your voice it makes me sick ending is better than mending
And even you got the plan to make me someone new
Got the plan to make me someone new
And even you do not have the view to pull it through
Go not have the plan to pull it through
Bite back your speech just fade out your voice
It makes me sick ending is better than mending
And even you got the plan to make me someone new
Got the plan to make me someone new
And even you do not have the view to pull it through
Pull it through, pull it through, pull it through
