

# Breathe

Sienna Skies

There comes a time when we will choose  
A time in life which we're confused  
This feeling we will share exists  
It sometimes translates with a kiss  
The floor is ours  
Let's not waste any time now  
Or we'll regret everything  
So...

Breathe for me baby  
Breathe for me baby  
Take me, take me  
Take me back to a place where we are one  
Feel for me baby, live for me baby  
Take my, take my  
Take my heart back to beating  
Back to feeling you

My heart beats strong for you  
Life all makes sense when you guide me through this  
Show me light through this  
Is it all on screen?  
Life, love  
What does it mean?

Breathe for me baby  
Breathe for me baby  
Take me, take me  
Take me back to a place where we are one  
Feel for me baby, live for me baby  
Take my, take my  
Take my heart back to beating  
Back to feeling

We will love forever  
We will feel forever  
We will be forever  
We are one

Breathe for me baby  
Breathe for me baby  
Take me, take me  
Take me back to a place where we are one  
Feel for me baby, live for me baby  
Take my, take my  
Take my heart back to beating  
Back to feeling  
Breathe for me baby  
Breathe for me baby  
Take me, take me  
Take me back to a place where we are one
