

Even Stronger

Sienna Skies

Road blocks in every direction
You were the one always there to set them
Deep down you hoped I would fail
You never thought that I would prevail

I hope it hurts you to see what I have done
You run your mouth and you tried to stop me but I stood strong

You pulled me down but I kept on fighting, I'm refusing to give
in

I came, I saw, I conquered and threw it in your face
Even when you're trying to kill me I came back even stronger
Even when I kept on moving you kept on stopping me
I'll do this just to prove you wrong, you were wrong about this
I'll prove to you that I am strong, much stronger than this

Breaking through against all the odds, showing you this is what
I'm made for.

Even though you try to fight it I still keep proving you wrong.
Even though you can't deny it I still keep proving you wrong.
Bring it on, I'll continue to take it.
I will use it as fuel until I make it.

Even when you're trying to kill me I came back even stronger.
Even when I kept on moving you kept on stopping me.
I'll do this just to prove you wrong, you were wrong about this
.
I'll prove to you that I am strong, much stronger than this.

I can feel it, I can sense it,
You tried to kill me but I'm not dead yet.
Even when you're trying to kill me I came back even stronger.
Even when I kept on moving you kept on stopping me.
I'll do this just to prove you wrong, you were wrong about this
.
