

Worth It?

Sienna Skies

Sometimes we like to act with our actions before words
With something to fight against
(FIGHT AGAINST)
But in the end we have to ask
Was it something to fight against?
(FIGHT AGAINST)

Sometimes you see the light
You see straight through the fight and you know whats right
(And you know whats right)
But then again sometimes its always dark and then we have to ask
"Was it really worth it?"

And every time we fight for whats wrong and right
We have to open up our eyes and see whats really worth it
And every time we die for something that we fight
Why do we live and lie for something really worth it?

Is it really worth it?

Only time will tell if we made the choice if this was worth it?
And then the lies will show that this all was right
And we were left to fight

And every time we fight for whats wrong and right
We have to open up our eyes and see whats really worth it
And every time we die for something that we fight
Why do we live and lie for something really worth it?
And every time we fight for whats wrong and right
We have to open up our eyes and see whats really worth it
And every time we die for something that we fight
Why do we live and lie for something really worth it?

Take my hand and we will fight for something
We will make sure it worth something
Will You stand by
By my side?
Will We Fight?
We will fight!
We will fight forever if we believe this is worth it
Will we fight?
(If we believe)
We will fight
(This is worth it)
We will have no regrets
Have no regrets
